

# MATERIAL SAFETY DATA SHEET

## MSDS W-106 REVISION 10

THE DIAL CORPORATION  
DIAL CENTER FOR INNOVATION  
15101 NORTH SCOTTSDALE ROAD  
SCOTTSDALE, ARIZONA 85254

MEDICAL EMERGENCIES: 1-888-689-9082  
CHEMTREC: 1-800-424-9300 (24 Hours Daily)  
OTHER INFORMATION: 1-888-468-6673

### SUBSTANCE IDENTIFICATION

SUBSTANCE: GEL ELECTRIC AIR FRESHENER

TRADE NAMES/SYNONYMS: RENUZIT® ELECTRIC REFILLS—After the Rain  
RENUZIT® ELECTRIC REFILLS—Apple & Cinnamon  
RENUZIT® ELECTRIC REFILLS—Blue Oasis  
RENUZIT® ELECTRIC REFILLS—Caribbean Cooler  
RENUZIT® ELECTRIC REFILLS—Citrus Sunburst  
RENUZIT® ELECTRIC REFILLS—Dream Garden  
RENUZIT® ELECTRIC REFILLS—Fresh Cut Flowers  
RENUZIT® ELECTRIC REFILLS—Vanilla Delight

CHEMICAL FAMILY: Mixture

I.D. NUMBERS: 915009 (Fresh Cut Flowers); 915038 (After The Rain); 915040 (Apple & Cinnamon);  
915106 (Citrus Sunburst), 915179 (Heather Mist); 99101127 (Caribbean Cooler);  
99101078 (Dream Garden); 99101199 (Caribbean Cooler); 99101534 (Vanilla Delight)

NFPA RATINGS (Scale 0-4, where 4=high degree of hazard): HEALTH=1 FLAMMABILITY=2 REACTIVITY=0  
HMIS RATINGS (Scale 0-4, where 4=severe hazard): HEALTH=1 FLAMMABILITY=2 REACTIVITY=0

This product is labeled in accordance with regulations administered by the Consumer Product Safety Commission. The use pattern and exposure in the workplace are generally not consistent with those experienced by consumers. The requirements of the Occupational Safety and Health Administration applicable to this Material Safety Data Sheet differ from the requirements of the CPSC and as a result, this MSDS may contain additional health hazard information not pertinent to consumer use and not found on the product label.

### HAZARDOUS INGREDIENT INFORMATION

COMPONENT: CONCENTRATED PERFUME OIL

CAS#: Proprietary Mixture

OCCUPATIONAL EXPOSURE LIMITS: None established by OSHA, ACGIH, or NIOSH.

Carcinogen status of components: Not listed as carcinogenic by NTP, IARC, or OSHA.

### PHYSICAL AND CHEMICAL DATA

DESCRIPTION: Thickened liquid with a fragrant odor.

VAPOR PRESSURE: Not determined.

VISCOSITY: 6000-8000 cps @ 15-35 °C (RVT, #5 spindle, 20 rpm) pH: Not determined.

SOLUBILITY IN WATER: Slight.

## FIRE AND EXPLOSION DATA

FLASH POINT: Not Determined.

FIRE AND EXPLOSION HAZARD - Combustible thickened liquid. Dangerous fire hazard when exposed to excessive heat or flame.

FIRE FIGHTING MEDIA - Dry chemical, carbon dioxide, water spray, or regular foam.

FIRE FIGHTING - Shut off all ignition sources. Move containers from fire area if you can do it without risk. Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Keep upwind.

## HEALTH HAZARD DATA

NOTE: The acute health effects described below are those which could potentially occur for the finished product. They are based on the toxicology information available for the finished product and/or each hazardous ingredient, and are consistent with the product type and the likelihood of a specific route of exposure. Known chronic health effects related to exposure to a specific ingredient are indicated.

### ACUTE HEALTH EFFECTS:

- INHALATION:** Vapors may cause irritation of the nose, throat, and respiratory tract. Breathing high vapor concentrations may produce anesthetic effects.
- SKIN CONTACT:** Concentrate may be severely irritating. Repeated or prolonged exposure may cause allergic dermatitis.
- EYE CONTACT:** Concentrate may cause severe irritation.
- INGESTION:** Not an anticipated route of exposure given the nature of the finished product.

**SUBCHRONIC/CHRONIC HEALTH EFFECTS:** None known.

Repeated daily dosing of large amounts to laboratory animals resulted in reproductive, liver and kidney effects. Lung and kidney tumors were produced when administered to laboratory animals by stomach tube. Similar effects have not been reported in humans.

**MEDICAL CONDITIONS GENERALLY RECOGNIZED AS BEING AGGRAVATED BY EXPOSURE:** None known.

## EMERGENCY AND FIRST AID PROCEDURES

**INHALATION:** Remove from exposure area to fresh air immediately. Keep affected person warm and at rest. Treat symptomatically and supportively. Contact physician or local poison control center. If breathing has stopped, give artificial respiration, and get medical attention immediately.

**SKIN CONTACT:** Rinse affected area with mild soap and plenty of water until no evidence of product remains. Get medical attention if irritation persists.

**EYE CONTACT:** Immediately rinse eyes with plenty of water, occasionally lifting upper and lower lids, until no evidence of product remains. Get medical attention if pain or irritation persist.

**INGESTION:** Treat symptomatically and supportively. Maintain airway and respiration. If vomiting occurs, keep head below hips to prevent aspiration. Dilution by rinsing the mouth and giving water or milk to drink is generally recommended. If unconscious, the victim should not be given anything to drink. Contact physician or local poison control center.

## REACTIVITY

REACTIVITY - Stable under normal temperatures and pressures.

INCOMPATIBILITIES: Strong oxidizers.

DECOMPOSITION - Thermal decomposition may produce irritating and/or toxic gases

POLYMERIZATION - Hazardous polymerization has not been reported to occur under normal temperatures and pressures.

## STORAGE AND DISPOSAL

Store in a well-ventilated area, away from incompatible substances, excessive heat or cold. Observe all federal, state and local regulations when storing or disposing of this substance.

## CONDITIONS TO AVOID

CAUTION: Combustible material. DO NOT remove or puncture clear film protecting colored fragrance concentrate. Avoid contact with incompatible substances and excessive heat, sparks or open flame.

## SPILL AND LEAK PROCEDURES

OCCUPATIONAL SPILL - Shut off ignition sources. Do not touch spilled material. Stop leak if you can do it without risk. Isolate area until vapors have been dispersed. No smoking, flames or flares in hazard area! Keep unnecessary people away; isolate hazard area and deny entry. Ventilate closed spaces before entering. Take up with sand or other absorbent material and place into containers for later disposal. For larger spills, dike far ahead of spill for later disposal.

## OCCUPATIONAL PROTECTIVE EQUIPMENT

VENTILATION: - Provide general dilution ventilation. Ventilation equipment should be explosion-proof.

RESPIRATOR - If respiratory protection is required, it must be based on the contamination levels found in the workplace, must not exceed the working limits of the respirator and be jointly approved by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration (NIOSH-MSHA).

FOR FIRE FIGHTING AND OTHER IMMEDIATELY DANGEROUS TO LIFE OR HEALTH CONDITIONS -

Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode. Any supplied-air respirator that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure-demand or other positive-pressure mode.

CLOTHING - Protective clothing is required where repeated or prolonged skin contact may occur.

GLOVES - Chemical-resistant gloves are required where repeated or prolonged skin contact may occur.

EYE PROTECTION - Safety glasses are required where the possibility of eye contact may occur.

**REGULATORY INFORMATION**

DOT FLAMMABILITY CLASSIFICATION:

Combustible liquid.

EPA - SARA TITLE III SECTION 313:

Not applicable - Consumer product.

TSCA:

All components of this product are listed or are exempted or excluded from listing on the U.S. Toxic Substances Control Act (TSCA) chemical substance inventory.
