

MATERIAL SAFETY DATA SHEET

MSDS FR-198 REVISION 3

THE DIAL CORPORATION
CENTER FOR INNOVATION
15101 NORTH SCOTTSDALE ROAD
SCOTTSDALE, ARIZONA 85254

MEDICAL EMERGENCIES: 1-888-689-9082
CHEMTREC: 1-800-424-9300 (24 Hours Daily)
OTHER INFORMATION: 1-888-468-6673

SUBSTANCE IDENTIFICATION

SUBSTANCE: PERFUME BLEND

TRADE NAMES/SYNONYMS: **POTPOURRI PERFUME LIQUID BLEND**

CHEMICAL FAMILY: Mixture

I.D. NUMBER: N/A

NFPA RATINGS (Scale 0-4, where 4=high degree of hazard): HEALTH=1 FLAMMABILITY= 2 REACTIVITY=0
HMIS RATINGS (Scale 0-4, where 4=severe hazard): HEALTH=2 FLAMMABILITY= 2 REACTIVITY=0

HAZARDOUS INGREDIENTS INFORMATION

The specific chemical identities of the ingredients of this mixture are considered by Dial to be Trade Secrets and are withheld in accordance with the provisions of 1910.1200 of Title 29 of the Code of Federal Regulations.

PHYSICAL AND CHEMICAL DATA

DESCRIPTION: A liquid with a potpourri odor.

SPECIFIC GRAVITY: Not determined.

VISCOSITY: Not determined.

SOLUBILITY IN WATER: Not soluble.

FIRE AND EXPLOSION DATA

FLASH POINT: > 141°F (Setaflash)

OSHA FLAMMABILITY CLASSIFICATION: III A

FIRE AND EXPLOSION HAZARD - Combustible liquid.

FIRE FIGHTING MEDIA - Dry chemical, carbon dioxide, treat as a class "B" fire. Do not use water to control fire.

FIRE FIGHTING - Move container from fire area if you can do it without risk. Procedure same as for an oil fire. Avoid breathing hazardous vapors, keep upwind.

HEALTH HAZARD DATA

NOTE: The acute health effects described below are those which could potentially occur for the perfume mixture. They are based on the toxicology information available for the perfume mixtures in general and are consistent with the perfume and the likelihood of a specific route of exposure. Known chronic health effects related to exposure to a specific ingredient are indicated.

ACUTE HEALTH EFFECTS:

- INHALATION:** May cause anesthetic effects and/or nausea at high vapor concentrations.
- SKIN CONTACT:** Repeated or prolonged exposure may result in irritation and allergic contact dermatitis.
- EYE CONTACT:** May cause moderate to severe irritation, with possibility of corneal injury if not removed from eye promptly.
- INGESTION:** May cause nausea, vomiting, abdominal pain, diarrhea, and lethargy. Large quantities may be lethal.

SUBCHRONIC/CHRONIC HEALTH EFFECTS: None known.

MEDICAL CONDITIONS GENERALLY RECOGNIZED AS BEING AGGRAVATED BY EXPOSURE: Persons with pre-existing skin disorders.

EMERGENCY AND FIRST AID PROCEDURES

INHALATION: Remove from exposure area to fresh air immediately. Keep affected person warm and at rest. Treat symptomatically and supportively. Contact physician or local poison control center. If breathing has stopped, give artificial respiration, and get medical attention immediately.

SKIN CONTACT: Rinse affected area with mild soap and plenty of water until no evidence of perfume mixture remains. Get medical attention if irritation persists.

EYE CONTACT: Immediately rinse eyes with plenty of water, occasionally lifting upper and lower lids, until no evidence of perfume mixture remains. Get medical attention if pain or irritation persist.

INGESTION: DO NOT induce vomiting. Immediately contact physician or local poison control center. Treat symptomatically and supportively. Maintain airway and respiration. If vomiting occurs, keep head below hips to prevent aspiration. Dilution by rinsing the mouth and giving water or milk to drink is generally recommended. If unconscious, the victim should not be given anything to drink.

REACTIVITY

REACTIVITY - Stable under normal temperatures and pressures.

INCOMPATIBILITIES: Strong oxidizers.

DECOMPOSITION - Thermal decomposition products may release toxic and/or hazardous gases.

POLYMERIZATION - Hazardous polymerization has not been reported to occur under normal temperatures and pressures.

STORAGE AND DISPOSAL

Store in a cool, dry, ventilated area away from sunlight, incompatible substances, excessive heat or ignition sources. Store in tightly closed containers. Observe all federal, state and local regulations when storing or disposing of this substance.

CONDITIONS TO AVOID

CAUTION: Material is combustible liquid. Avoid contact with incompatible substances, excessive heat or open flame.

SPILL AND LEAK PROCEDURES

OCCUPATIONAL SPILL - Stop leak if you can do it without risk. Shut off all sources of ignition. For small spills, take up with sand or other absorbent material and place into clean, dry containers for later disposal. For larger spills, dike far ahead of spill for later disposal. Keep unnecessary people away and isolate hazard area.

OCCUPATIONAL PROTECTIVE EQUIPMENT

VENTILATION - Provide general dilution ventilation system to keep exposure to airborne chemical concentrations as low as possible.

RESPIRATOR - If respiratory protection is required, it must be based on the contamination levels found in the workplace, must not exceed the working limits of the respirator and be jointly approved by the National Institute for Occupational Safety and Health and the Mine Safety and Health Administration (NIOSH-MSHA).

FOR FIRE FIGHTING AND OTHER IMMEDIATELY DANGEROUS TO LIFE OR HEALTH CONDITIONS -

Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode. Any supplied-air respirator that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary self-contained breathing apparatus operated in pressure-demand or other positive-pressure mode.

CLOTHING - Protective clothing (impervious) is required where repeated or prolonged skin contact may occur.

GLOVES - Chemical-resistant gloves are required where repeated or prolonged skin contact may occur.

EYE PROTECTION - Splash-proof safety glasses are required to prevent eye contact where splashing of material may occur.

REGULATORY INFORMATION

DOT FLAMMABILITY CLASSIFICATION: Combustible liquid.

EPA - SARA TITLE III SECTION 313: Not applicable.

TSCA: All components of this product are listed or are exempted or excluded from listing on the U.S. Toxic Substances Control Act (TSCA) chemical substance inventory.
